### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1 and 3-16 are allowed as amended. The amendment to the claim-1 is supported by the original claim-2 and specification (Pg-11, Ln 13-14 and 19-20). The new claim 16 is supported by the examples. The amended claims were examined fully with a revised search.

The closest prior art by Aruga et al (US 2003/0138637) teaches coating the particles of hexaborides of rare-earths with a hydrolyzate of tetraalkyl silicate, baking the surface silica coating and further hydrophobicized by coating with trialkoxysilanes (Abstract, Para 0039-0017, 0063-0068), but fails to teach or suggestive heat-treating the alkoxysilane coated particles. Takeda (JP 2003-277045) teaches the instant claimed composition and it can not be a valid prior art because it has the same inventive entity and its publication date of October 02, 2003 is less than one year from the effective US filing Date of January 26, 2004 for the instant application. The instant claimed hexaboride particles surface coated with silicon-containing specific surface treatment agent obtained by encapsulation and heat treatment are allowed over the unexpected superior product obtained by the specific process steps whose data is given in the form of Table in the reply filed 12/11/2006 which is supported by the data in the instant specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kallambella Vijayakumar whose telephone number is 571-272-1324. The examiner can normally be reached on 8.30-6.00 Mon-Thu, 8.30-5.00 Alt Fri.
